SUBJECT INDEX TO VOLUME 108

ABDOMEN, muscles, Congenital deficiency of abdominal musculature and obstructive uropathy, 289; Technique of synchronous (two team) abdominoperineal pelvic exenteration, 351; Technique for increasing abdominal capacity in repair of massive ventral hernia, 751

Abnormalities, Surgical anatomy of subclavian artery and its branches, 149; Congenital, deficiency of abdominal musculature and obstructive uropathy, 289; Vascular malformations of spinal cord, 673; congenital, Technique for increasing abdominal capacity in repair of massive ventral hernia, 751

Adrenals, Adrenalectomy in advanced mammary cancer, 651

Aerobacter aerogenes, bacteremia and bacilluria, 733

American College of Surgeons, Clinical Congress, Preliminary plans for 45th, Convention Hall, Atlantic City, New Jersey, September 28 to October 2, 1959, 763

Ammonium, Removal of excessive potassium and, from bank blood prior to transfusion, 1

Anatomy, Vascular study of small intestine, 134; Surgical, of subclavian artery and its branches, 149; High ligation of inferior mesenteric artery during operations for carcinoma of distal colon and rectum, 641

Aneurysm, aortic, Analysis of rupture of thoracic, subsequent to abdominal aneurysmectomy, 567; Value of hypothermia and arterial occlusion in treatment of intracranial, 631

Anisinidione (miradon), Clinical experience with anticoagulant, 605

Antibacterials, Misuse of, in inguinal herniorrhaphy, 721

Antibiotics, Kanamycin for intestinal antisepsis, 100; Back to Lister, ed. 235; Discriminate, prophylaxis in elective surgery, 385; Prevention of wound infection following contamination with colon organisms, 389; Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous enteritis, 409; Should, be used in large bowel preparations, 623

Anticoagulants, Clinical experience with, anisindione (miradon), 605

Antisepsis, Kanamycin for intestinal, 100

Antrum, Gastric, friend or foe, ed. 366

Anus, Repair of "Whitehead deformity" of, 115; Anorectal plastic operation for fissure and stenosis and its surgical principles, 249; Multicentric origin of carcinomas of female anogenital tract, 273

Aorta, Experimental study of arterial replacement in presence of bacterial infection, 141; New technique for replacement of renal artery, 500; Analysis of rupture of thoracic aneurysms subsequent to abdominal aneurysmectomy, 567

Arteries, Experimental study of arterial replacement in presence of bacterial infection, 141; subclavian, Surgical anatomy of, and its branches, 149; Pulmonic stenosis with intact interventricular septum, 175; New, for old, ed. 237; femoral, popliteal, Arterial bypass below the knee, 321; Effects of temporary arterial, venous, and arteriovenous occlusion upon intestinal blood flow, 347; Experimental study of systemic-coronary anastomosis, 361; renal, New technique for replacement of, 500; mammary, Bilateral internal, ligation and coronary, occlusion, 518; Value of hypothermia and arterial occlusion in treatment of intracranial aneurysms, 631; High ligation of inferior mesenteric, during operations for carcinoma of distal colon and rectum, 641; Effect of arterial, venous, and arteriovenous occlusion on renal blood flow, 669; spermatic, Vascular mechanism for maintaining testicular temperature by counter-current exchange, 697; Use of median sternotomy with femoral, cannulation in open cardiac surgery, 706

Asepsis, Back to Lister, ed. 235; Discriminate antibiotic prophylaxis in elective surgery, 385

Atomic energy, Rationale and principles of planning for disaster, ed. 488

Axilla, Cystic hygroma, 457

BACILLURIA, Aerobacter aerogenes bacteremia and, 733

Bacteremia, Aerobacter aerogenes, and bacilluria, 733

Bacteria, Bacteriostasis of tetracycline deposited in bone, 65; Prevention of wound infection following contamination with colon organisms, 389; Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous enteritis, 409; Misuse of antibacterials in inguinal herniorrhaphy, 721

Bile ducts, Management of, strictures with associated portal hypertension, 627

Bladder, "Cup-patch" technique of ileocystoplasty for, enlargement or partial substitution, 240; Technique of sigmoidocystoplasty, 370; Surgical relief of urinary incontinence, 493; Functional studies on transplanted intestinal smooth muscle grafts used to reconstruct denervated canine, 523; Use of isolated loops of bowels in urologic surgery, 683

Blood, preservation, Removal of excessive potassium and ammonium from bank, prior to transfusion, 1; circulation, Hemodynamic effects of total circulatory occlusion during hypothermia, 13; Six year study of incompatible, transfusions, 19; circulation, Observations on effect of portacaval anastomosis upon hemodynamics of liver, 223; circulation, Arterial bypass below knee, 321; circulation, Effects of temporary arterial, venous, and arteriovenous occlusion upon intestinal, flow, 347; Obstetrical viewpoints upon Rh factor, 485; circulation, New technique for replacement of renal artery, 500; circulation, Bilateral internal mammary artery ligation and coronary artery occlusion, 518; circulation, Prevention and production of thrombosis by alterations in electric environment, 533; circulation, Humoral factor in regeneration of liver in parabiotic rats, 549; circulation, Influence of experimental arteriovenous fistula on healing of fractures and on, flow distal to fistula, 591; prothrombin, Clinical experience with anticoagulant anisindione (miradon), 605; circulation, Value of hypothermia and arterial occlusion in treatment of intracranial aneurysms, 631; circulation, Effect of arterial, venous, and arteriovenous occlusion on renal, flow, 669; temperature, Vascular mechanism for maintaining testicular, by counter-current exchange, 697; plasma, Early electrolyte and colloid therapy in cases of burned infants and children, 726; Aerobacter aerogenes bacteremia and bacilluria, 733

Blood pressure, high, Management of bile duct strictures with associated portal hypertension, 627; Shock and, ed. 740

Blood transfusion, Removal of excessive potassium and ammonium from bank blood prior to, 1; Six year study of incompatible, 19; and Jehovah's witnesses, 502
Blood vessels, Pulse transmission through grafts, 61; Vascular study of small intestine, 134; Synthetic materials as vascular prostheses—III, long term studies on grafts of nylon, dacron, orlon, and teflon replacing large, 433; Prevention and production of thrombosis by alterations in electric environment, 533; Vascular malformations of spinal cord, 673
Bone, Bacteriostasis of tetracycline deposited in, 65; Treatment of parosteal osteoma of, 537; Influence of experimental arteriovenous fistula on healing of fractures and on blood flow distal to fistula, 591
"Bone-setter," Female, of Epsom, 122
Book Shelf, "Female bone-setter" of Epsom, 122; Blood transfusion and Jehovah's witnesses, 502
Brain, Effect of hypothermia and steroid therapy on experimental cerebral injury, 333; Value of hypothermia and arterial occlusion in treatment of intracranial aneurysms, 631; Human, changes in cardiac arrest, 692
Breast, Transcranial yttrium^{90} hypophysectomy, 393; Adrenalectomy in advanced mammary cancer, 651; Incidence of metastasis in internal mammary chain in operable cancer of, 715
Burns, Debricin—clinical experiences with new proteolytic enzyme in surgical wounds, 93; Electrolyte and colloid therapy in burned infants and children, 726

Cancer, Treatment of papillary carcinoma of thyroid gland, 43; Cellular detection of carcinoma of esophagus, 75; Radical en bloc ethmoidectomy for, 109; End results in combined (commando) operation for mouth, 129; Significance of liver dysfunction in mouth, 230; detection survey of carcinoma of lung and female pelvis among Navajos on Navajo Indian reservation, 257; Study of 227 patients with acute large bowel obstruction due to carcinoma of colon, 267; Multicentric origin of carcinomas of female anogenital tract, 273; Postoperative irradiation of 86 cases of carcinoma of cervix, 313; Transformation of low grade papillary carcinoma of thyroid to anaplastic carcinoma after treatment with radioiodine, 357; Why do, patients die, ed. 368; Transcranial yttrium^{90} hypophysectomy, 393; Endocrine basis for sensitization response, 463; Regional lymph node involvement in small carcinoma of cervix, 513; Wertheim hysterectomy in treatment of endometrial carcinoma, 582; Combined radiologic-surgical treatment of carcinoma of cervix, 600; Carcinoma of cervix, ed. 616; heterodoxy, ed. 618; High ligation of inferior mesenteric artery during operations for carcinoma of distal colon and rectum, 641; Adrenalectomy in advanced mammary, 651; Incidence of metastasis in internal mammary chain in operable, of breast, 715; and cacotelic operations, ed. 743
Carcinoma, see Cancer
Cardiac arrest, Evaluation of various cardioplegic methods utilizing isolated perfused guinea pig hearts, 211; Human brain changes in, 692
Cardioplegia, Evaluation of various, methods utilizing isolated perfused guinea pig hearts, 211
Cartilage, Studies on acceleration of wound healing with,—II, histologic observations, 406
Cells, Cellular detection of carcinoma of esophagus, 75
Charlatanry, "Female bone-setter" of Epsom, 122
Chemotherapy, Aerobacter aerogenes bacteremia and bacilluria, 733
Children, Early electrolyte and colloid therapy in burned infants and, 726
Cicatrix, Concealed incision for surgical approach to upper humerus, 756
Colloids, Early electrolyte and, therapy in burned infants and children, 726
Colon, Management of massive hemorrhage from diverticular disease of, 49; Study of 227 patients with acute large bowel obstruction due to carcinoma of, 267; Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous enteritis, 409; Experimental development of pseudomembranous enterocolitis, 415; High ligation of inferior mesenteric artery during operations for carcinoma of distal, and rectum, 641
Contraction, of full thickness wounds in rat, 421
Contrast media, Hysterosalpingography with new water-soluble medium (sinografin), 679
Coronary artery, Experimental study of systemic-, anastomosis, 361; Bilateral internal mammary, ligation and, occlusion, 518
Cranium, Dermoid and epidermoid tumors in central nervous system of adults, 191
Cystourethropexy, Surgical relief of urinary incontinence, 493

Dacron, Synthetic materials as vascular prostheses—III, long term studies on grafts of nylon, orlon, and teflon replacing large blood vessels, 433
Debricin, —clinical experiences with new proteolytic enzyme in surgical wounds, 93
Diagnosis, Cellular detection of carcinoma of esophagus, 75; differential, Treatment of parosteal osteoma of bone, 537; Hysterosalpingography with new water-soluble medium (sinografin), 679
Disaster, Rationale and principles of planning for, ed. 488
Disease, biochemical, systemic, Why do cancer patients die, ed. 368
Diverticulum, Management of massive hemorrhage from diverticular disease of colon, 49

Education, medical and surgical, Foreign intern and resident, ed. 105; medical and surgical, Surgeons of tomorrow, ed. 107
Electricity, Prevention and production of thrombosis by alterations in electric environment, 533
Electrolytes, Early, and colloid therapy in burned infants and children, 726
Embolism, air, Instrument for prevention of, during direct vision closure of atrial septal defects and mitral valvuloplasties, 747
Endocrine glands, basis for sensitization response, 463
Endometrium, Wertheim hysterectomy in treatment of endometrial carcinoma, 582
Enteritis, Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous, 409
Enterocolitis, Experimental development of pseudomembranous, 415
Enzymes, Debricin—clinical experiences with new proteolytic, in surgical wounds, 93
Epithelium, Contraction of full thickness wounds in rat, 421
Erythroblastosis fetalis, Obstetrical viewpoints upon the Rh factor, 485
Esophagus, Cellular detection of carcinoma of esophagus, 75; Thoracoabdominal repair of esophageal hiatus hernia, 245; Pathologic changes occurring in severe reflux esophagitis, 476
Ethmoid bone, Radical en bloc ethmoidectomy for cancer, 109
Exenteration, Technique of synchronous (two team) abdominoperineal pelvic exenteration, 351
Extremities, Unilateral lower, hypertrophy, 35

FALLOPIAN TUBE, Hysterosalpingography with new water-soluble medium (sinografin), 679
Feces, Experimental evaluation of fecal continence—sphincter and reservoir—in dog, 469
Fistula, Influence of experimental arteriovenous, on healing of fractures and on blood flow distal to, 591
Flap, Timing of transfer of, in reconstructive surgery, 68
Fluids, loss, Early electrolyte and colloid therapy in burned infants and children, 726
Fracture, Life expectancy after, of hip, 7; Influence of experimental arteriovenous fistula on healing of, and on blood flow distal to fistula, 591

GASTRECTOMY, Results of adequate, with gastroduodenostomy, 207
Gastrointestinal tract, Malignant lymphomas of, 182; Experimental evaluation of fecal continence—sphincter and reservoir—in dog, 469
Genitals, Multicentric origin of carcinomas of female anogenital tract, 273
Grafts, blood vessel, Pulse transmission through, 61; freeze-dried, nylon tubing, Experimental study of arterial replacement in presence of bacterial infection, 141; blood vessel, New arteries for old, ed. 237; blood vessel, Arterial bypass below knee, 321; blood vessel, Experimental study of systemic-coronary anastomosis, 361; blood vessel, Synthetic material as vascular prostheses—III, long term studies on, of nylon, dacron, orlon, and teflon replacing large, 433; Uroepithelial lined small bowel as ureteral substitute, 439; blood vessel, New technique for replacement of renal artery, 500; Functional studies on transplanted intestinal smooth muscle, used to reconstruct denervated canine bladder, 523; Use of isolated loops of bowels in urologic surgery, 683

HEART, Pulmonic stenosis with intact interventricular septum, 175; Evaluation of various cardioplegic methods utilizing isolated perfused guinea pig, 211; Experimental study of systemic-coronary anastomosis, 361; Safe method for atrial entrance in treatment of mitral stenosis, 373; Human brain changes in cardiac arrest, 692; Use of median sternotomy with femoral artery cannulation in open cardiac surgery, 706; Instrument for prevention of air embolism during direct vision closure of atrial septal defects and mitral valvuloplasties, 747
Hemangioma, Unilateral lower extremity hypertrophy, 35
Hemodynamics, effects of total circulatory occlusion during hypothermia, 13; Pulse transmission through grafts, 61; Observations on effect of portacaval anastomosis upon, of liver, 223
Hemorrhage, Management of massive, from diverticular disease of colon, 49
Heparin, Prevention and production of thrombosis by alterations in electric environment, 533
Hernia, Use of pliable synthetic mesh in repair of, and tissue defects, 199; diaphragmatic, Thoracoabdominal repair of esophageal hiatus, 245; inguinal, Rake retractors to simplify, hernioplasty in infants, 499; inguinal, Misuse of antibacterials in, herniorrhaphy, 721; Technique for increasing abdominal capacity in repair of massive ventral, 751
Hip, Life expectancy after fracture of, 7
Hormones, Endocrine basis for sensitization response, 463; Adrenalectomy in advanced mammary cancer, 651
Hospitals, infection, Misuse of antibacterials in inguinal herniorrhaphy, 721
Humerus, Concealed incision for surgical approach to upper, 756
Hygroma, Cystic, 457
Hypophysis cerebri, Transcranial yttrium[90] hypophysectomy, 393
Hypothermia, Hemodynamic effects of total circulatory occlusion during, 13; Effect of, and steroid therapy on experimental cerebral injury, 333; Value of, and arterial occlusion in treatment of intracranial aneurysms, 631
Hysterosalpingography, with new water-soluble medium (sinografin), 679

ILEOCYSTOPLASTY, "Cup-patch" technique of, for bladder enlargement or partial substitution, 240
Ileum, Polypoid gastric heterotopia of jejunum and, causing subacute intestinal obstruction, 282
Incision, Concealed, for surgical approach to upper humerus, 756
Infants, newborn, Obstetrical viewpoints upon Rh factor, 485; Rake retractors to simplify inguinal hernioplasty in, 499
Infection, Experimental study of arterial replacement in presence of bacterial, 141; Back to Lister, ed. 235; hospital, Discriminate antibiotic prophylaxis in elective surgery, 385; Prevention of wound, following contamination with colon organisms, 389; Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous enteritis, 409; surgical, Wound complications, ed. 492; hospital, Misuse of antibacterials in inguinal herniorrhaphy, 721; Aerobacter aerogenes bacteremia and bacilluria, 733
Instruments and apparatus, perfusion, Evaluation of various cardioplegic methods utilizing isolated perfused guinea pig hearts, 211; mitral spiral, Instrument for prevention of air embolism during direct vision closure of atrial septal defects and, valvuloplasties, 747
Intern, Foreign, and resident, ed. 105
Intestines, Kanamycin for intestinal antisepsis, 100; Vascular study of small, 134; "Cup-patch" technique of ileocystoplasty for bladder enlargement or partial substitution, 240; obstruction, Study of 227 patients with acute large bowel, due to carcinoma of colon, 267; Polypoid gastric heterotopia of jejunum and ileum causing subacute intestinal obstruction, 282; Radiation injury to sigmoid and rectum, 306; Effects of temporary arterials venous, and arteriovenous occlusion upon intestinal blood flow, 347; Evaluation of distention and stasis in pathogenesis of experimental pseudomembranous enteritis, 409; Experimental development of pseudomembranous enterocolitis, 415; Uroepithelial lined small bowel as ureteral substitute, 439; Functional studies on transplanted intestinal smooth muscle grafts used to reconstruct denervated canine bladder, 523; Should antibiotics be used in large bowel preparations, 623; High ligation of inferior mesenteric artery during course of operations for carcinoma of distal colon and rectum, 641; Use of isolated loops of bowels in urologic surgery, 683
Iodine, Transformation of low grade papillary carcinoma of thyroid to anaplastic carcinoma after treatment with radioiodine, 357

JEHOVAH'S WITNESSES, Blood transfusion and, 502
Jejunum, Polypoid gastric heterotopia of, and ileum causing subacute intestinal obstruction, 282

KANAMYCIN, for intestinal antisepsis, 100
Kidney, Effect of arterial, venous, and arteriovenous occlusion on renal blood flow, 669; Use of isolated loops of bowels in urologic surgery, 683
Knee, Arterial bypass below, 321

LEG, Unilateral lower extremity hypertrophy, 35; blood supply, Arterial bypass below knee, 321; Improved method of venography, 375
Leiomyomas, Microscopic study of growth of, of uterus during pregnancy, 575
Lister, Back to, ed. 235
Liver, Observations on effect of portacaval anastomosis upon hemodynamics of, 223; Significance of, dysfunction in mouth cancer, 230; Humoral factor in regeneration of, in parabiotic rats, 549
Lung, Cancer detection survey of carcinoma of, and female pelvis among Navajos on Navajo Indian reservation, 257
Lymph nodes, Cystic hygroma, 457; Regional, involvement in small carcinoma of cervix, 513; Incidence of metastasis in internal mammary chain in operable cancer of breast, 715
Lymphomas, Malignant, of gastrointestinal tract, 182

MAPP, Mrs. Sarah, "Female bone-setter" of Epsom, 122
Medical education, Foreign intern and resident, ed. 105; Surgeons of tomorrow, ed. 107
Medical ethics, Blood transfusion and Jehovah's witnesses, 502
Medical planning, Rationale and principles of, for disaster, ed. 488
Medicine, Cancer heterodoxy, ed. 618
Mesh, Use of pliable synthetic, in repair of hernias and tissue defects, 199
Metabolism, Studies in, of trauma—III, postoperative sodium retention, 339
Microscopy, Microscopic study of growth of leiomyomas of uterus during pregnancy, 575
Mitral valve, Safe method for atrial entrance in treatment of, stenosis, 373; Instrument for prevention of air embolism during direct vision closure of atrial septal defects and, valvuloplasties, 747
Mortality, Life expectancy after fracture of hip, 7
Mouth, End results in combined (commando) operation for, cancer, 129; Significance of liver dysfunction in, cancer, 230
Muscle, Functional studies on transplanted intestinal smooth, grafts used to reconstruct denervated canine bladder, 523
Musculature, Congenital deficiency of abdominal, and obstructive uropathy, 289

NAVAJO INDIANS, Cancer detection survey of carcinoma of lung and female pelvis among, on, reservation, 257
Neck, Cystic hygroma, 457
Nervous system, sympathetic, Hemodynamic effects of total circulatory occlusion during hypothermia, 13; Dermoid and epidermoid tumors in central, of adults, 191
Nylon, Synthetic material as vascular prostheses—III, long term studies on grafts of, dacron, orlon, and teflon replacing large blood vessels, 433

OBSTETRICS, Obstetrical viewpoints upon Rh factor, 485
Oral cavity, Tumors of intraoral accessory salivary glands, 450
Orlon, Synthetic material as vascular prostheses—III, long term studies on grafts of nylon, dacron, and teflon replacing large blood vessels, 433
Osteoma, Treatment of parosteal, of bone, 537

PATHOLOGY, Why do cancer patients die, ed. 368; Occurring in severe reflux esophagitis, 476
Pelvis, Cancer detection survey of carcinoma of lung and female, among Navajos on Navajo Indian reservation, 257; Technique of synchronous (two team) abdominoperineal pelvic exenteration, 351
Perineum, Technique of synchronous (two team) abdominoperineal exenteration, 351; Improved incision for retroperitoneal exposure, 620
Pituitary body, Transcranial yttrium^{90} hypophysectomy, 393
Polypus, Polypoid gastric heterotopia of jejunum and ileum causing subacute intestinal obstruction, 282
Portal vein, Observations on effect of portacaval anastomosis upon hemodynamics of liver, 223; Management of bile duct strictures with associated, hypertension, 627
Potassium, Removal of excessive, and ammonium from bank blood prior to transfusion, 1
Pregnancy, Microscopic study of growth of leiomyomas of uterus during, 575
Prosthesis, Synthetic materials as vascular,—III, long term studies on grafts of nylon, dacron, orlon, and teflon replacing large blood vessels, 433
Pulmonary valve, Pulmonic stenosis with intact interventricular septum, 175
Pulse, pressure, transmission through grafts, 61
Pylorus, Development of primary pyloric hypertrophy in adults in relation to structure and function of pyloric canal, 83

RADIATION, injury to sigmoid and rectum, 306; therapy, Combined radiologic-surgical treatment of carcinoma of cervix, 600
Radioactivity, Transformation of low grade papillary carcinoma of thyroid to anaplastic carcinoma after treatment with radioiodine, 357; Transcranial yttrium^{90} hypophysectomy, 393
Rectum, Anorectal plastic operation for fissure and stenosis and its surgical principles, 249; Radiation injury to sigmoid and, 306; Experimental evaluation of fecal continence—sphincter and reservoir—in dog, 469; High ligation of inferior mesenteric artery during operations for cancer of distal colon and, 641
Regeneration, Humoral factor in, of liver in parabiotic rats, 549
Retractor, rake, to simplify inguinal hernioplasty in infants, 499
Rh factor, Obstetrical viewpoints upon, 485
Roentgenography, Vascular study of small intestine, 134; Improved method of venography, 375; Hysterosalpingography with new water-soluble medium (sinografin), 679
Roentgen-ray, therapy, Radiation injury to sigmoid and rectum, 306; therapy, Postoperative irradiation of 86 cases of carcinoma of cervix, 313

SALIVARY GLANDS, Tumors of intraoral accessory, 450
Sensitization response, Endocrine basis for, 463
Shock, and blood pressure, ed. 740
Shunt, splenorenal, Management of bile duct strictures with associated portal hypertension, 627
Sigmoid, Radiation injury to, and rectum, 306; Technique of sigmoidocystoplasty, 370
Skin, grafts, Timing of transfer of flaps in reconstructive surgery, 68; Contraction of full thickness wounds in rat, 421
Sodium, Studies in metabolism of trauma—III, postoperative, retention, 339
Sphincter muscles, anal, Experimental evaluation of fecal continence—, and reservoir—in dog, 469
Spinal cord, Vascular malformations of, 673
Spleen, excision, Management of bile duct strictures with associated portal hypertension, 627
Staphylococcus, Experimental development of pseudomembranous enterocolitis, 415
Sternum, Use of median sternotomy with femoral artery cannulation in open cardiac surgery, 706

Steroids, Effect of hypothermia and, therapy on experimental cerebral injury, 333
Stomach, Development of primary pyloric hypertrophy in adults in relation to structure and function of pyloric canal, 83; Results of adequate gastrectomy with gastroduodenostomy, 207; mucosa, Polypoid gastric heterotopia of jejunum and ileum causing subacute intestinal obstruction, 282; Gastric antrum: friend or foe, ed. 366; Useful technical detail in performance of gastric resection, 745
Surgeon at work, Radical en bloc ethmoidectomy for cancer, 109; Repair of "Whitehead deformity" of anus, 115; Surgical uses of peroneus brevis tendon, 117; "Cup-patch" technique of ileocystoplasty for bladder enlargement or partial substitution, 240; Thoracoabdominal repair of esophageal hiatus hernia, 245; Anorectal plastic operation for fissure and stenosis and its surgical principles, 249; Technique of sigmoidocystoplasty, 370; Safe method for atrial entrance in treatment of mitral stenosis, 373; Improved method of venography, 375; Surgical relief of urinary incontinence, 493; Rake retractors to simplify inguinal hernioplasty in infants, 499; New technique for replacement of renal artery, 500; Improved incision for retroperitoneal exposure, 620; Should antibiotics be used in large bowel preparation, 623; Management of bile duct strictures with associated portal hypertension, 627; Value of hypothermia and arterial occlusion in treatment of intracranial aneurysms, 631; Useful technical detail in performance of gastric resection, 745; Instrument for prevention of air embolism during direct vision closure of atrial septal defects and mitral valvuloplasties, 747; Technique for increasing abdominal capacity in repair of massive ventral hernia, 751; Concealed incision for surgical approach to upper humerus, 756
Surgeons, of tomorrow, ed. 107
Surgery, plastic, Timing of transfer of flaps in reconstructive, 68; preoperative care, Kanamycin for intestinal antisepsis, 100; training, Foreign intern and resident, ed. 105; training, Surgeons of tomorrow, ed. 107; technique, Radical en bloc ethmoidectomy for cancer, 109; technique, Repair of "Whitehead deformity" of anus, 115; technique, Surgical uses of peroneus brevis tendon, 117; technique, pulmonic valvotomy, stenosis with intact interventricular septum, 175; vascular, New arteries for old, ed. 237; technique, "Cup-patch," of ileocystoplasty for bladder enlargement or partial substitution, 240; technique, Thoracoabdominal repair of esophageal hiatus hernia, 245; technique, Anorectal plastic operation for fissure and stenosis and its surgical principles, 249; technique, Arterial bypass below knee, 321; Technique, of synchronous (two team) abdominoperineal pelvic exenteration, 351; technique, Experimental study of systemic-coronary anastomosis, 361; Technique, of sigmoidocystoplasty, 370; technique, Safe method for atrial entrance in treatment of mitral stenosis, 373; Discriminate antibiotic prophylaxis in elective, 385; technique, Uroepithelial lined small bowel as ureteral substitute, 439; technique, Experimental evaluation of fecal continence—sphincter and reservoir—in dog, 469; postoperative complications, Wound, ed. 492; technique, New, for replacement of renal artery, 500; Wound healing—II, evaluation of surgical suture material, 555; Combined radiologic-surgical treatment of carcinoma of cervix, 600; Improved incision for retroperitoneal exposure, 620; preoperative care, Should antibiotics be used in large bowel preparations, 623; technique, Use of median sternotomy with femoral artery cannulation in open cardiac, 706; technique, Incidence of metastasis in internal mammary chain in operable cancer of breast, 715; Cancer and cacotelic operations, ed. 743; technique, Useful technical detail in performance of gastric resection, 745; technique, Instrument for prevention of air embolism during direct vision closure of atrial septal defects and mitral valvuloplasties, 747; Technique, for increasing abdominal capacity in repair of massive ventral hernia, 751; technique, Concealed incision for surgical approach to upper humerus, 756
Sutures, materials, catgut, cotton, dacron, nylon, nymo, ramie, silk, teflon, wire, Wound healing—II, evaluation of surgical, 555

TEFLON, Synthetic materials as vascular prostheses—III, long term studies on grafts of nylon, dacron, orlon, and, replacing large blood vessels, 433
Temperature, Vascular mechanism for maintaining testicular, by counter-current exchange, 697
Tendon, Surgical uses of peroneus brevis, 117
Testes, Vascular mechanism for maintaining testicular temperature by means of counter-current exchange, 697
Tetracycline, Bacteriostasis of, deposited in bone, 65
Thorax, Use of median sternotomy with femoral artery cannulation in open cardiac surgery, 706
Thrombosis, Prevention and production of, by alterations in electric environment, 533
Thyroid, Treatment of papillary carcinoma of, gland, 43; Transformation of low grade papillary carcinoma of, to anaplastic carcinoma after treatment with radioiodine, 357
Tissue, Use of pliable synthetic mesh in repair of hernias and, defects, 199
Transplantation, Surgical uses of peroneus brevis tendon, 117
Trauma, Radiation injury to sigmoid and rectum, 306; Studies in metabolism of,—III, postoperative sodium retention, 339; Rationale and principles of planning for disaster, ed. 488
Tumors, Dermoid and epidermoid, in central nervous system of adults, 191; of intraoral accessory salivary glands, 450; osteoma, Treatment of parosteal, of bone, 537; leiomyomas, Microscopic study of growth of, of uterus during pregnancy, 575
